We Are Concerned!

[About](#) the non-use of the US Constitution by the US Congress as a roadmap to govern this nation.

[About](#) the continued growth of government;

[About](#) our national debt;

[About](#) our national security;

[About](#) the restriction on bearing arms;

[About](#) the restriction of free speech;

[About](#) the restriction of religion.

Educate and Inform the whole mass of the people. They are the only sure reliance for the preservation of liberty.

- Thomas Jefferson

LIMITED GOVERNMENT

We Believe...

To provide for those citizens of Burleson County, Texas who embrace participatory self government as envisioned by our Nation's Founders, and to empower those same citizens with the political strength that comes through the sharing of ideas and ideals.

We honor the sacrifices of those patriots that came before us and will work and strive to keep intact the government of Independence, the United States Constitution, and the Bill of Rights as eloquently defined.
